## Art. 25 DSA

## Online interface design and organisation

- 1. Providers of online platforms shall not design, organise or operate their online interfaces in a way that deceives or manipulates the recipients of their service or in a way that otherwise materially distorts or impairs the ability of the recipients of their service to make free and informed decisions.
- 2. The prohibition in paragraph 1 shall not apply to practices covered by Directive 2005/29/EC or Regulation (EU) 2016/679.
- 3. The Commission may issue guidelines on how paragraph 1 applies to specific practices, notably:
  - (a) giving more prominence to certain choices when asking the recipient of the service for a decision;
  - (b) repeatedly requesting that the recipient of the service make a choice where that choice has already been made, especially by presenting pop-ups that interfere with the user experience;
  - (c) making the procedure for terminating a service more difficult than subscribing to it.
